Introduction

Budget and apportionment records include the various files accumulated in the course of formulating the budget for submission to the Office of Management and Budget (OMB) and Congress; in defending requests for funds before both bodies; and after enactment of an appropriation bill, in ensuring that the funds are used in such a way as to suffice for the appropriate period of time. The funds are made available to the Bureau of Land Management (BLM) by OMB, usually in quarterly portions, and the BLM must indicate and justify regularly to OMB their proposed rate of expenditure. After the funds have been made available to the BLM, its own controls over the funds are in expenditure accounting records (Schedule 7), and in detailed information relative to expenditures is contained in the accountable officers' accounts (Schedule 6). Records created prior to January 1, 1921, must be offered to the National Archives and Records Administration (NARA) for appraisal before an agency may apply the disposition instructions.

Budget records are normally created at all levels of the BLM. They show proposals from all operating levels as well as the BLM-wide and DOI-wide coordinating work done by formally organized budget offices. Therefore, the records consist of detailed work papers and budgetary statements developed by single operating units, the more significant budget statements and related papers representing consolidated submissions prepared at the Bureau then forwarded to the Department budget officer.

The nature of the budget presentation itself is standardized by OMB which prescribes format and procedures for all federal agencies. However, the internal reports and papers which support the budget and are used in its preparation vary from agency to agency. The budget submission, a record copy of which is usually designated by the agency, is a duplicate of the set of papers submitted to OMB.. These include summary statements of appropriations and expenditures, statements of contract authorizations, and statements of receipts as well as narrative summary statements which highlight the principal features of the BLM requests and immediately related supporting documents. The narrative presents the policies and the programs of the BLM which the budgetary requests are to support. In addition to the summaries, the submission includes schedules of obligations and statements pertaining to each type of appropriation and fund under which the BLM operates. Finally, OMB requires additional supporting data pertaining to objects of expenditure, particular programs, and figures based on the cost of various type of service operations, such as personnel and payrolling activities.

A new item has been added to this schedule to authorize the destruction of electronic mail and word processing records maintained by the BLM in addition to the copy in the recordkeeping system. This item covers electronic copies of electronic mail and word processing records created and used solely to produce the recordkeeping copy, and electronic copies of electronic mail and word processing records that are needed in addition to the recordkeeping copy for dissemination, revision, or updating.
